

# Meet SHREE

CLASS OF 2023

GRADES  
9-12

#### How has Summit Academy been a good fit for you?

Summit's been really great with helping me recover school credits. I get a lot of one-on-one help at Summit Academy, filling in those in-between pieces that were missing when I attended an online school.

#### How would you describe Summit Academy Transition High School – Dayton to someone unfamiliar with the school?

It's definitely hands-on. You get a lot more one-on-one time with teachers than you would in other schools. Because it's a very close-knit school that specializes in helping different students with different needs, teaching and social interactions are handled well.

#### What would you like people to know about you?

I've worked pretty hard to be in the position I am mentally, emotionally, maturity-wise. I built my way to where I am by working, asking questions, pushing for more. I faced negative experiences in life, came in to school behind in every class and faced homelessness. I have seen that working for something is going to get you there quicker than waiting for something to happen.

#### Future plans ...

I plan to get a BFA in theater and eventually teach high school. Before that, I am going to use a period of time after graduation to work full time and take a leadership position at my job. I plan to put money in savings and apply for scholarships so I can go to college with as little debt as possible.

#### Advice to students who may be struggling or have odds stacked against them ...

Don't compare yourself to other people you see on TV or social media. A lot of times they have been set up in a positive position with more opportunities. That doesn't mean it's impossible for you to do well. You may have to work harder and that isn't fun, but you can get to a better place.

Summit Academy  
SCHOOLS
