

Policy 5012: Parents Bill of Rights

The Governing Authority maintains that parents have the fundamental right to make decisions concerning the upbringing, education, and care of the parent(s)' child.

I. Purpose

The purpose of this policy is to promote parental involvement in the School. (For the purposes of this policy the terms "parent" "parents" and "parental" shall include all terms for individuals having legal responsibility for the care, custody, and control of a child.

II. In order to achieve this policy's purpose, the School shall do all of the following:

- A. Ensure that any sexuality content is age-appropriate and developmentally appropriate for the age of the student receiving the instruction, regardless of the age or grade level of the student. Prior to providing instruction that includes sexuality content or permitting a third party to provide such instruction on behalf of the School, provide parents the opportunity to review any instructional material that includes sexuality content. Upon request of the student's parents, a student shall be excused from instruction that includes sexuality content and be permitted to participate in an alternative assignment.
- B. Promptly notify a student's parents of any substantial change in the student's services, including counseling services, or monitoring related to the student's mental, emotional, or physical health or well-being or the School's ability to provide a safe and supportive learning environment for the student. The School shall notify the parents via email or other written communication regarding any such changes. The School may also call the parents, but only in addition to the written notification requirement. The notice shall reinforce the fundamental right of parents to make decisions regarding the upbringing and control of their children, and that the School shall not inhibit parental access to the student's education and health records maintained by the school.

- C. Prohibit School personnel from directly or indirectly encouraging a student to withhold from a parent information concerning the student's mental, emotional, or physical health or well-being, or a change in related services or monitoring, and prohibit School personnel from discouraging or prohibiting parental notification of and involvement in decisions affecting a student's mental, emotional, or physical health or well-being.
- D. Adopt a procedure to obtain authorization from parents prior to providing any type of health care service to the student, including physical, mental, and behavioral health care services. Under the procedure, a parent may choose whether to authorize the School to provide a health care service to the parent's child. As part of the procedure, the School shall do both of the following:
 - 1. At the beginning of the school year, notify parents of each health care service offered at, or facilitated in cooperation with, the School and their option to withhold consent or decline any specified service. Parental consent to health care services does not waive the parent's right to access their student's educational or health records or to be notified about a change in the student's services or monitoring as provided in this policy.
 - 2. Prior to providing a health care service to a student, notify a parent whether the service is required to be provided by the School under state law and if other options for a student to access the service exist. This requirement may be satisfied by an annual notice to parents at the beginning of the school year.

This section does not apply to emergency situations, first aid, other unanticipated minor health care services, or health care services provided pursuant to a student's IEP or the School's obligation under section 504 of the "Rehabilitation Act of 1973," 29 U.S.C. 794.

- E. Permit a parent to file with the Principal or designee a written concern regarding a topic addressed in this policy. The Principal or designee shall resolve such concerns within thirty days after their receipt of the written concern. The School shall notify parents of their right to file a written concern. A parent may appeal the decision to the Superintendent.

1. If a parent appeals the decision, the Superintendent, or designee, shall conduct a hearing on the decision. Based on the findings of that hearing, the Superintendent shall decide whether to affirm the decision. If the Superintendent does not affirm the decision, the Superintendent shall determine a resolution to the parent's concern. A parent may appeal the Superintendent's decision to the School's Governing Authority. The Governing Authority shall review the decision and, if the Governing Authority determines it necessary, hold a hearing on the decision and, based on that hearing, either affirm the Superintendent's decision or determine a new resolution to the parent's concern.
2. Nothing in this section shall prevent a parent from contacting a member of a board of education regarding the parent's concerns with the operation of the School under the supervision of the Governing Authority.

III. General Provisions

- A. The School shall make sure that this policy is publicly available and post it prominently on the School's website.
- B. This Policy does not prescribe all rights of parents or preempt or foreclose claims or remedies in support of parental rights that are available under the constitution, statutes, or common law of Ohio.
