News

Spring is right around the corner (3/20), and it's the perfect time to try fresh, colorful fruits and veggies! This month, we're celebrating brighter flavors & crunchy bites as we march into a new season.

For this month's activity, choose a fruit or veggie & think about how it helps your body grow--maybe it gives you energy, helps your bones, or keeps you feeling strong. Draw a picture or share one way your snack helps you grow! "Carrots help my eyes see better so I can read & play."

Have a fresh & fun March, and enjoy your healthy snacks!
