ANNUAL REPORT

Summit Academy
SCHOOLS

dear families

It is hard to believe that the school year is over and I am here once again, writing this annual message. It was a year filled with progress and growth, and we are so grateful to share it with all of you.

This year, we worked closely with our State Support Team representatives to strengthen our behavioral expectations and to provide consistency across all classrooms and areas of the school building. As a result, we saw a reduction in out-of-school suspensions, and we also saw 100% participation in the schoolwide PBIS program. We have continued to put social-emotional development in the forefront to provide a safe and therapeutic space for all students.

Even with our restorative and social-emotional practices taking a front seat, it is always important to us to maintain a strong educational foundation. Through the implementation of strong general education practices, we saw impressive growth in our Renaissance Star scores in both math and reading. Our social studies and biology departments also shined with several students achieving Accelerated or Advanced scores on their End of Course exams. While we value our students' and teachers' ability for far more than the ability to meet standardized test benchmarks, it is still always an impressive feat to see them shine in this area!

We also had several successful school events this year! We held our first annual Fall Fresh Fest where students and families had the opportunity to mingle with school staff while enjoying freshly made foods, donated by staff and our partners at Regeneration Church. We also held our annual School Showcase in the spring, celebrating all the hard work students have put in throughout the entire school year. Our partnerships with both Regeneration Church and Grace United Methodist Church were strong this year, as well. We organized food drives and volunteer hours at both churches to thank them for everything they provide to our students, such as Thanksgiving lunch, Christmas celebrations, and a beautiful venue for our graduation. In the upcoming year, we can't wait to hold even more exciting school events to include the community and enrich our students.

Every year, the staff at Summit Academy Warren Middle/Secondary continue to grow as individuals and as a group. They work tirelessly to ensure our students are receiving the best possible education while also working to mold the students into successful future adult citizens. We are very proud to have our staff, and are looking forward to the growth we will make in years to come.

Yours in Education,

Erin Bradley, M.Ed
Director

highlights

our mission

The mission of Summit Academy Schools is to build hope, success, and well-being through education and advocacy for students with special needs.

sponsor statement

The Educational Service Center of Lake Erie West (ESCLEW) served as sponsor for Summit Academy School for Alternative Learners Warren Middle & Secondary during the 2024 - 2025 school year. ESCLEW monitored the school's academic and fiscal performance, as well as organization and operation of the school, and determined that the school was overall compliant.

star assessment

Summit Academy Students take Star Assessments three times each year to measure their reading and math skills compared to grade-level standards. Their annual growth in these skills is monitored by Student Growth Percentile (SGP) data, which compares a student's academic growth to that of his or her peers nationwide. A student's peers are students in the same grade with a similar achievement history on Star Assessments.

The following data shows the percentage of students who met or exceeded the SPG target of 40 in reading and math between the fall and spring assessment administrations during the 2023–2024 and 2024–2025 school years.

star assessment

STUDENT GROWTH PERCENTILE

EARLY LITERATURE

READING

MATH

LOW GROWTH

TYPICAL GROWTH

HIGH GROWTH

The Student Growth Percentile (SGP) compares a student's growth to that of his or her academic peers nationwide. These peers are students in the same grade with a similar achievement history on Star assessments. SGP is measured on a 1–99 scale. Lower numbers indicate lower relative growth, and higher numbers indicate higher relative growth. For instance, if a student has an SGP of 75, it means the student has shown more growth than 75 percent of his or her academic peers. Teachers and administrators can use SGP scores to determine if students grew more than (at or above the 66th growth percentile), less than (below the 35th growth percentile), or as much as (between the 35th and 65th growth percentiles) expected. The SGP minimum target for all SA schools is the 40th growth percentile.

star assessment

STUDENT PROFICIENCY RATE

EARLY LITERATURE

READING

MATH

A benchmark is a standard against which you measure the achievement of a student, grade, school, or district. It is the lowest level of performance that is considered acceptable. The district benchmark applies to all schools and grades and is always used for longitudinal reporting. The proficiency rate is the percent of students at or above the district benchmark on a Star assessment. It uses the most recent score in the given district screening window. Benchmark proficiency is measured on a 1–99 scale. Lower numbers indicate lower relative achievement, and higher numbers indicate higher relative achievement. For instance, if a student has a proficiency rate of 65, it means the student has performed better than 64 percent of his or her academic peers on this specific test. The benchmark structure includes four categories: At/Above Benchmark = at or above the 40th percentile rank; On Watch = the 25th – 39th percentile rank; Intervention = the 10th – 24th percentile rank; Urgent Intervention = below the 10th percentile rank.

PERFORMANCE ACCOUNTABILITY FRAMEWORK: CONTRACT ATTACHMENT 11.6

The Performance Accountability Framework (Attachment 11.6) consists of multiple, measurable goals focused on the academic, financial, and operational expectations for the school year. This document is categorized into five goal areas: local report card indicator areas, school-specific academic measures, operations, legal compliance, and financial accountability.

CONTRACT ATTACHMENT 11.6: ACADEMIC PERFORMANCE STATUS

Overall Rating	Falls Below Standard	Nationally-Normed Assessment Achievement K- 8 Reading	Approaches Standard
Achievement Component	Falls Below Standard	Nationally-Normed Assessment Achievement K-8 Math	Falls Below Standard

METHOD OF MEASUREMENT FOR ATTACHMENT 11.6 GOALS

All Summit Academy students are benchmarked (screened) three times each year using Renaissance Star assessments to compare their reading and math achievement to grade-level norms and determine their instructional support needs. The metric used to determine growth in this assessment is a Student Growth Percentage (SGP) score of 40 or higher, which equates to a year plus growth. The testing data helps teachers determine whether students are on track or not on track toward math and reading proficiency, identify reading and math skill deficiencies, measure student growth, monitor student progress, prescreen students who are potentially gifted, and deliver targeted instruction. Following each benchmarking period, teachers will analyze the data collaboratively in Teacher-Based Teams (TBTs) to determine appropriate instructional strategies and intervention support needs for their students.

Summit Academy students participate in Ohio state tests as prescribed. With such a high percentage of students with disabilities, we have found that Star growth data portrays a more accurate picture of student learning than the state report cards. Our students will frequently make a tremendous amount of growth within a year, but since they started so many grade-levels behind their achievement test scores are still lower than grade-level proficient, which gives the perception that the students are failing to learn. Stardata provides an objective, detailed basis on which to make decisions about instruction and intervention, prioritizing foundational skills in reading and math, thus supporting students to achieve higher growth and to fill academic gaps that hinder grade-level achievement.

The multi-tiered systems of support (MTSS) framework is used for academics, behavior, and social-emotional support in all Summit Academy schools. A joint project of the curriculum and special education regional teams brought school specific collaboration to ensure that school leaders understood MTSS and structured their instructional schedules to maximize MTSS implementation. Implementation support, classroom observations, and feedback are provided by the regional teams.

Our most consistent and detailed MTSS system is the Summit Academy Reading Framework. The framework emphasizes training teachers thoroughly in the science of reading and appropriate instructional strategies. The framework also ensures that our curriculum materials are aligned to the state standards, support the science of reading, provide diagnostic assessments, and include evidence-based interventions to best meet our students' needs. A curriculum audit has been completed with support from the regional curriculum administrator and new materials were purchased based on the guidelines set in the framework. A Reading Framework Action Plan was also developed, putting measurable goals in place that are focused on increasing our students' reading abilities and overall academic performance.

statewide achievement

REPORT CARD MEASUREMENTS

The Ohio Department of Education has revised the school report card to analyze performance, determining strengths and areas of improvement for each district. The new report card includes five components that will receive ratings from one to five stars. These components are achievement, Progress, Early Literacy, Gap Closing and Graduation. The sixth component, College, Career, Workforce and Military Readiness, was not required in the 2022 - 2023 school year.

ACHIEVEMENT COMPONENT

The achievement component identifies how well students performed on the state tests overall.

Student performance is identified through the Performance Index which measures the achievement of every student, not just whether they score a proficient level. Each test a student takes is assigned an achievement level based on the test score, with higher scores resulting in higher achievement levels.

PERCENTAGE OF MAXIUM POINTS EARNED	RATING	RATING DESCRIPTION
Greater than or equal to 90% of Max Score	★★★★★	Significantly exceeds state standards in academic achievement
Greater than or equal to 80% but less than 90% of Max Score	★★★★☆	Exceeds state standards in academic achievement
Greater than or equal to 70% but less than 80% of Max Score	★★★★☆	Meets state standards in academic achievement
Greater than or equal to 50% but less than 70% of Max Score	★★★☆☆	Needs support to meet state standards in academic achievement
Less than 50% of Max Score	★★★☆☆	Needs significant support to meet state standards in academic achievement

SCHOOL REPORT CARD RATING

PROGRESS COMPONENT

Academic growth is measured by looking at the current achievement compared to prior achievement results on the state tests. This is determined by looking at the growth index and the effect size to see if there was expected growth or a shortfall in expected growth, relative to Ohio.

PERCENTAGE OF MAXIUM POINTS EARNED	RATING	RATING DESCRIPTION
Growth index of at least +2 and effect size of at least +.2	★★★★★	Significant evidence that the school exceeded student growth expectations by a larger magnitude
Growth index of at least +2 and effect size of less than +.2	★★★★☆	Significant evidence that the school exceed student growth expectations
Greater than or equal to -2 but less than +2	★★★★☆	Evidence that the school met student growth expectations
Less than -2 and effect size of at least -.2	★★★☆☆	Significant that the school fell short of student growth expectations
Less than -2 and effect size of less than -.2	★★★☆☆	Significant evidence that the school fell short of student growth expectations by larger magnitude

SCHOOL REPORT CARD RATING

EARLY LITERACY COMPONENT

The Early Literacy Component measures reading improvement and proficiency for students in kindergarten through third grade. This component provides a more complete picture of early literacy in our schools by looking at three separate areas. 1) The proficiency in Third Grade Reading reports how many students score proficient or higher on the reading segment of Ohio' State Test for English Language Arts for grade 3. 2) The Promotion to Fourth Grade measure reports the percentage of students in third grade who were promoted to fourth grade. 3) The Improving K-3 Literacy measure uses two consecutive years of data to evaluate how well schools are doing at providing supports to help struggling readers.

PERCENTAGE OF MAXIMUM POINTS EARNED	RATING	RATING DESCRIPTION
From 88% to 100%	★★★★★	Significantly exceeds state standards in early literacy (K – 3)
From 78% to less than 88%	★★★★★	Exceeds state standards in early literacy (K – 3)
From 68% to less than 78%	★★★★★	Meets state standards in early literacy (K – 3)
From 58% to less than 68%	★★★★★	Needs support to meet state standards in early literacy (K – 3)
From 0% to less than 58%	★★★★★	Needs significant support to meet state standards in early literacy (K – 3)

SCHOOL REPORT CARD RATING
N/A

GAP CLOSING COMPONENT

There are several measures to determine the gap closing component, which is focused on student subgroups including all students, Asian/Pacific Islander, Hispanic, White/Non-Hispanic, Black/Non-Hispanic, American Indian/Alaskan Native, Multiracial, English Learner, Economic Disadvantage, and Students with Disabilities.

The indicators to evaluate student performance and academic growth include:

- The Gifted Performance Indicator
- The Chronic Absenteeism Improvement Indicator
- The English Language Proficiency Improvement Indicator
- Graduation Goals by Student Subgroup
- English Language Arts, Math Achievement by Student Subgroup
- English Language Arts, Math Progress (Growth) by Student Subgroup

RANGE - PERCENTAGE OF POINTS EARNED OUT OF POSSIBLE POINTS	RATING	RATING DESCRIPTION
From 88% to 100%	★★★★★	Significantly exceeds state standards in early literacy (K – 3)
From 78% to less than 88%	★★★★★	Exceeds state standards in early literacy (K – 3)
From 68% to less than 78%	★★★★★	Meets state standards in early literacy (K – 3)
From 58% to less than 68%	★★★★★	Needs support to meet state standards in early literacy (K – 3)
From 0% to less than 58%	★★★★★	Needs significant support to meet state standards in early literacy (K – 3)

SCHOOL REPORT CARD RATING

GRADUATION COMPONENT

The graduation component looks at both the four-year and five-year adjusted cohort graduation rates, determining the percentage of students graduating with a regular or honors diploma. The graduation rates are then multiplied by the state law established weights to determine the component rating.

RANGE - PERCENTAGE OF POINTS EARNED OUT OF POSSIBLE POINTS	RATING	RATING DESCRIPTION
Greater than or equal to 96.5%	★★★★★	Significantly exceeds state standards in graduation rates
Greater than or equal to 93.5% but less than 96.5%	★★★★★	Exceeds state standards in graduation rates
Greater than or equal to 90% but less than 93.5%	★★★★★	Meets state standards in graduation rates
Greater than or equal to 84% but less than 90%	★★★★★	Needs support to meet state standards in graduation rates
Less than 84%	★★★★★	Needs significant support to meet state standards in graduation rates

SCHOOL REPORT CARD RATING

COLLEGE, CAREER, WORKFORCE AND MILITARY READINESS COMPONENT

The College, Career, Workforce, and Military Readiness Component is a measure of how prepared Ohio's students are for future opportunities, whether training in a technical field or preparing for work or college.

RANGE - PERCENTAGE OF POINTS EARNED OUT OF POSSIBLE POINTS	RATING	RATING DESCRIPTION
Greater than or equal to 85%	★★★★★	Significantly exceeds state standards in post-secondary readiness rates
Greater than or equal to 75% but less than 85%	★★★★★	Exceeds state standards in post-secondary readiness rates
Greater than or equal to 63% but less than 75%*	★★★★★	Meets state standards in graduation rates
Greater than or equal to 53% but less than 63%	★★★★★	Needs support to meet state standards in graduation rates
Less than 53%	★★★★★	Needs significant support to meet state standards in graduation rates

**If a district or school initially earns a 1 star or 2 star rating but then improves at least 15 percentage points from the previous year, that school or district will earn a final rating of 3 stars and 2.25 points toward the Overall Rating.*
